

The accompanying balance sheet of Frontier Elementary PTSO (a non profit organization) as of October 20, 2009, and the related statements of profit and loss and budget comparison– cash basis, for the three months and year then ended have been prepared by Katie Fuller, CPA. I have prepared such financial statements in my capacity as treasurer of Frontier Elementary PTSO.

The board is not presenting the financial statements with correct titles and presentation required for the cash basis of accounting for a non profit organization. The accounting software used does not allow for such modifications. The board has not determined the effects from this departure. The board has elected to omit substantially all the disclosures and the statement of cash flows required. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the organization's financial position, and results of operations. Accordingly, these financial statements are not designed for those who are not informed about such matters.
